please visit www.eianz.org/eventplus
or email carmel@crcms.com.au

Presenters:

Mark Hall

Acting Director at Department of the
Environment South-East Australia
Assessment Branch

As Acting Director of the South-East Assessment branch of the Commonwealth Department of Environment, Mark is uniquely placed to discuss the EPBC referral process. Mark will give an overview of the assessment process: how referrals are assessed and what evidence is needed in order to make an assessment.

Penny Wells

Manager Major Projects, Policy Division at
Department of Primary Industries, Parks,
Water and Environment.

As the Manager of Major Projects at DPIWPE, Penny is responsible for co-ordinating the environmental assessments within DPIWPE for major projects in the State. Penny was responsible for the oversight and liaison of the State's Strategic Assessment under the EPBC Act for the Midlands Water Scheme. Penny will discuss the Tasmanian experience with strategic assessments under the EPBC Act.

Catherine Murdoch

Manager Environment at Tasmanian
Irrigation Pty Ltd

At Tasmanian Irrigation, Catherine is responsible for the oversight of environmental planning and approval processes. Catherine leads the development, implementation and administration of environmental protection requirements during construction and operations. Catherine will provide an overview of the EPBC referral preparation process employed by Tasmanian Irrigation when assessing major infrastructure projects. She will also discuss how TI manages environmental compliance conditions during construction and operation of irrigation schemes.
