

A Journey Through the Forest of Reforms Biodiversity offsetting and clearance.

Presentation by Russel Seaman

When: Thursday 4th February 2016

Time: 5:30pm

Where: Kings Head Hotel (Function Room)
cnr King William and Sturt St,
Adelaide

Members: No Charge

Non-members: \$15

Students: \$10

(Cost includes nibbles and a complimentary drink)

This seminar is part of EIANZs commitment to on-going professional development for its members in SA.

RSVP: Tuesday 2nd February via the 'Events' link: www.eianz.org

Queries to Division Secretary:
bridgette.doudy@gmail.com

Please join us and Russel Seaman as he gives us a brief presentation within an enjoyable atmosphere of networking, socialising and industry professionals.

ABOUT Russel Seaman

Russel has been working within Department for Environment Water and Natural Resources (DEWNR) for close to 20 years. Russel says the variety of issues and complexities he has faced have kept his work 'fresh'. Much of his work has centred on environmental water management and more recently River Murray waters.

Russel decided a new challenge was needed in 2014, and now, is out of the water area and into native vegetation. His current role is Manager of the Native Vegetation Unit within DEWNR. The way native vegetation is being administered under the Native Vegetation Act is currently undergoing significant reforms. Russel's main job is to guide these reforms, focusing on the way DEWNR does business through operational and business reforms. However, more importantly, DEWNR is undertaking legislative reforms to introduce a biodiversity trading market to improve options for offsetting and reducing complexity surrounding clearance of vegetation through regulatory reforms.
