■ What exactly is EIANZ?

The Environment Institute of Australia and New Zealand is the peak professional association for environmental practitioners. The Institute's principal objectives are to promote environmental knowledge and advance ethical and competent practice whilst facilitating interaction amongst environmental professionals.

Heard of the IEAUST or CPA? Ever thought "What about my industry?" Well, EIANZ is YOUR professional industry association! Becoming a member of EIANZ allows individuals in the environment industry to demonstrate professionalism, accountability, competence and ethical environmental practices through abiding with the Institutes own Code of Ethics and Professional Conduct.

EIANZ has Australian and New Zealand chapters. The Australian chapter has divisions in all states including two for Queensland – Far North Queensland and South-East Queensland.

The EIANZ South-East Queensland Division (EIANZ SEQ) runs various conferences, workshops and events for professional development.
