

I joined the EIANZ as a second-year undergraduate environmental science student at Sydney University and have been an active member ever since. While I was trying to figure out what I wanted to do in my career, EIANZ opened my eyes to the vast opportunities available. A highlight for me at the time was mentoring, where I got some great career advice from very senior practitioners. Since then, EIANZ has been the one constant throughout my career, through university, as a consultant and now with the Australian Government. I've met some great friends and had lots of fun along the way too!

Paul Keighley MEIANZ, CEnvP
Member since 2001

START YOUR CAREER WITH EIANZ

Joining as a Student or Associate Member is the first step in your partnership with EIANZ. As your professional career progresses, so too can your membership with the prospect of moving from Student Membership to Associate then Full Membership, potentially gaining recognition as a Certified Environmental Practitioner along the way.

Throughout your membership you will have opportunities to develop your skills and knowledge through professional development tailored to your needs.

Making a small investment at the start of your career can help set you on the path to professional success.

Visit www.eianz.org to find out more and apply.

Printed using 100% recycled paper and vegetable inks to minimise the environmental impact.

If you are finished with this brochure, pass it on to someone else or re-use it as a planter pot. Scan the QR code to find out how.

ABOUT

Founded in 1987, the Environment Institute of Australia and New Zealand (EIANZ) is a politically independent, not-for-profit professional association for those working in, or interested in, the environment sector. We operate across all states and territories in Australia and throughout New Zealand, embracing all disciplines of environmental practice.

We support ethical and competent environmental practice and promote independent and interdisciplinary discussion on environmental issues.

Our members come from all areas of environmental practice and are at all stages in their career. Some members are yet to start their career, while others are highly regarded experts, renowned within the environment industry and distinguished within EIANZ as Fellows, Honorary Fellows or Life Members.

IT'S NEVER TOO EARLY TO JOIN!

Environmental practitioners are part of a diverse profession so it is never too early to start thinking about and planning for your career.

As a Student or Associate Member you will have an opportunity to build your professional reputation and develop your knowledge of the industry early on.

Becoming a member will help expand your network, introducing you to new friends, mentors, peers and employers.

Join now to be part of a community of environmental practitioners committed to excellence in environmental practice.

MEMBERSHIP

Environment students and recent graduates are invited to apply for membership.

STUDENT MEMBERSHIP

Open to those undertaking full time or part time study in a relevant tertiary course

ASSOCIATE MEMBERSHIP

Open to recent graduates or those with an interest in environmental practice
