

Being a member of EIANZ is essential for all environmental practitioners. It provides professional development opportunities and a forum for networking with peers which allows the practitioner to stay current and relevant. The EIANZ is a voice for the profession that enables the community and other stakeholders to better understand the importance of our work. If you are not a member, I encourage you to be one and make that broader commitment to our profession. I am sure EIANZ will introduce you to new friends, colleagues and employers.

ABOUT

Founded in 1987, the Environment Institute of Australia and New Zealand (EIANZ) is a politically independent, not-for-profit professional association for environmental practitioners. We operate across all states and territories in Australia and throughout New Zealand.

We support ethical and competent environmental practice and promote independent and interdisciplinary discussion on environmental issues.

Our members come from all areas of environmental practice and are at the forefront of challenging and complex issues such as climate change, sustainability and preserving biodiversity.

Some members are at the start of their careers while others are highly regarded experts in their field, distinguished within EIANZ as Fellows, Honorary Fellows or Life members.
