DIRECTOR | BUILT
ENVIRONMENT PROGRAM,
UNIVERSITY OF NEW SOUTH
WALES

Joined the Institute in 1991

*“Definitely join
[EIANZ], and take the
next step to obtain
your CEnvP.”*

Environment Institute
of Australia and
New Zealand Inc.

Celebrating 30 years 1987 - 2017

What prompted you to join EIANZ?

I had been working for several years in the journalism industry and was about to move into the environment sector.

What have you found most rewarding about a career in the environment sector?

At the risk of sounding like a cliché, ‘helping to make a difference’.

What is the biggest change that you have seen in the environment profession over the years?

IT in all its manifestations – hardware, software, big data.

What are some of the most important lessons you have learned (so far) over the course of your career?

The technical aspects are the easy bit, the difficult bit is changing behaviours and perspectives.

What do you see as EIANZ’s key role in the environment sector?

A peak body which covers a variety of practitioners, and a voice for the environment profession(s).

What advice would you give a colleague thinking of joining EIANZ?

Definitely join, and take the next step to obtain your CEnvP.
