SHARE YOUR EXPERTISE &
CONTRIBUTE TO THE PROFESSION!

JOIN THE
ECOLOGY
SPECIAL INTEREST SECTION

EIANZ's Ecology Special Interest Section (SIS) provides a focus on the ecology profession, drawing on the strengths of members and Certified Environmental Practitioners.

The Ecology SIS encourages discussions around current and emerging trends, issues and challenges in ecology and ecological practice.

JOIN THE SIS TO:

- Connect with like-minded ecologists
- Help develop and raise awareness of appropriate standards for ecological practice
- Participate in professional development
- Share information and participate in professional discussions
- Contribute to the Institute and earn CPD points.

SPECIAL INTEREST SECTIONS

are Institute-wide groups that bring together members with a shared area of interest and expertise. They are open to all members and work towards improving environmental practice through information sharing, development of guidance documents and delivery of professional development events.

If you're not an EIANZ member, the first step is to join. Find out more about the benefits of membership or apply today on the EIANZ website.

APPLY TO BECOME A

CERTIFIED ENVIRONMENTAL
PRACTITIONER

ECOLOGY SPECIALIST

If you are an experienced ecological practitioner, you can apply to have your skills and ethics recognised through the Certified Environmental Practitioner (CEnvP) Scheme.

Ecologists are eligible to apply for CEnvP Ecology Specialist certification when they have:

- At least 10 years ecology experience
- Hold an ecology-related degree
- Have demonstrated a commitment to training and professional improvement
- Shown they are a respected, competent, ethical and active member of the profession.

The **CERTIFIED ENVIRONMENTAL PRACTITIONER SCHEME** is an initiative of EIANZ aimed at boosting community and business confidence in environmental professionals. The CEnvP scheme recognises environmental professionals in line with their professional counterparts from engineering, accounting, planning and architecture. Environmental practitioners must meet high standards of professional and ethical conduct to gain certification.
