Resilience and Innovation

Environment Institute
of Australia and
New Zealand

SPONSORSHIP OPPORTUNITY

| ABOUT EIANZ

The Environment Institute of Australia and New Zealand (EIANZ) is a professional association for environmental practitioners. EIANZ supports environmental practitioners and promotes independent and interdisciplinary discussion on environmental issues.

Our members come from all areas of environmental practice and are at the forefront of challenging and addressing complex issues such as climate change, sustainability and preserving biodiversity. Some members are at the start of their careers, while others are highly regarded experts in their field.

| 2019 EIANZ ANNUAL CONFERENCE

The Annual Conference is EIANZ's signature event and provides an excellent opportunity for environmental practitioners to build their knowledge, skills and proficiencies, challenge conventional thinking and network with fellow professionals.

EIANZ's Annual Conference recognises and celebrates the achievements of environmental practitioners and attracts delegates from consultancies, government, industry and academia from across Australia and New Zealand. This year's conference takes place on Monday 04 and Tuesday 05 November in Adelaide with the theme: 'Resilience and Innovation'.

The conference will open with a welcome function for delegates on the evening on Sunday 03 November and will include post conference field trips, a gala dinner and awards night, a student and early careers congress and various EIANZ meetings.

| ATTENDANCE

It is anticipated that the conference will attract between 125 - 200 delegates from across Australia and New Zealand.

| CONFERENCE PROGRAM

The program will include:

- Keynote addresses
- Panel discussions
- Presentations
- Welcome function
- Gala dinner
- Special interest group events
- Post conference field trips
- Networking opportunities

| CONFERENCE STREAMS

- **Energy and renewables** | Inviting discussions on new energy sources and renewable technology, policy, proposals and projects
- **Succession planning for the profession** | Focusing on succession planning for the profession and what we need to do to keep our profession alive, contemporary and valuable
- **Communities and cities** | How planning and design rejuvenate communities, preserve culture and beliefs, influence disaster management, and contribute to wellbeing in the context of the environment.
- **Strategic planning, impact assessment, environmental design and creativity** | Oversight and strategic environmental assessment, planning, impact assessment and environmental design with new ideas and fresh eyes.
- **Environmental awareness and management with innovation** | How do we move forward with resilience and intelligence so we think differently in new (and old) spaces
- **Advancing knowledge in adaptation and integration** | Innovative ways to assimilate heritage, Indigenous culture, environmental values, community beliefs, science and engineering
- **Data and new technologies** | A consideration of how we gather, assess, and examine data; and apply new technologies to enable smarter measuring, recording, observing and monitoring of the environment.
- **Space and spatial** | The potential environmental impacts and management of outer space activities, spatial technology and satellite applications.
