ABOUT EIANZ

The Environment Institute of Australia and New Zealand (EIANZ) is a professional association for environmental practitioners. We support practitioners throughout their careers – from students and early career professionals to experienced and certified practitioners, through to retirement. We harness the expertise of our members to progress environmental practice and advocate to improve sustainability outcomes.

The Institute has a certification scheme that recognises ethical and professional practice which assures government, industry, and the community of practitioners' professional standing. Our members and certified practitioners have specialist knowledge and skills in environmental systems, processes, and solutions. They bring passion, ingenuity, and creativity to their work.
