Environmental Practitioners Symposium

November 2026

Partner with us on the 2026 Environmental Practitioners Symposium as we gather Western Australia's environmental sector in Perth. This is a unique opportunity to engage with a community of practitioners dedicated to advancing real-world environmental solutions. This year's Symposium will explore how practitioners can meet rising regulatory expectations while delivering on the commitments made to communities and the environment.

Symposium Themes

- **COMPLIANCE:** how do we go beyond approvals to demonstrate progress in or achievement of environmental outcomes?
- **TRUST:** how is trust built and maintained across stakeholders?
- **INTEGRITY:** what does accountability looks like in practice?

Environmental Practitioners Symposium
