

LEGACY WAY

VISITORS' CENTRE

FACT SHEET

Interactive eastern portal of Legacy Way Visitors' Centre

The Legacy Way Visitors' Centre brings to life the tunnelling experience in an interactive and engaging series of displays.

The Visitors' Centre provides an attraction for tunnel enthusiasts of all ages, from school kids to retirees.

The state-of-the-art centre shows features of the tunnel, providing an insight into how the finished tunnel will look and operate once open.

The centre is purpose-built to replicate the different stages of tunnel construction, featuring simulations of construction activity and recreating features of the western and eastern tunnel portals. The centre also includes a large presentation room with a 50-seat capacity to cater for large groups.

INTERACTIVE TUNNEL EXPERIENCE

Experience the sensation of being inside the tunnel, with a rounded roof and mock tunnel segments, animations of the tunnel boring machines (TBM) and video demonstrations of segment placing. There are also interactive touch screens with images and videos about the project as well as a simulated TBM operating experience.

KEY FEATURES

Located at 80 Jephson Street Toowong, the Legacy Way Visitors' Centre uses the latest multimedia technology to provide an educational and interactive experience for all visitors.

Key interactive features include;

- tunnelling progress map – tracks the progress of the tunnel boring machines (TBM) along the tunnel alignment from Toowong to Kelvin Grove
- Five touch screen displays
- 3D models depicting the final design of the eastern and western portals of the tunnel
- showcase of the plans for the rehabilitated western worksite, a 4ha extension to the Brisbane Botanic Gardens at Mt Coot-tha
- a simulated TBM experience.

The Visitors' Centre is designed to cater for all ages. Drop in or please call Transcity's Community Relations team on 1800 778 772 for group bookings.

Visitors' Centre – directional map

How to get there

- **From Toowong Train Station** head west on Sherwood Road and turn left onto Jephson Street.
- **From Regatta CityCat terminal** head southwest on Coronation Drive, turn right onto High Street, right onto Sherwood Road and left onto Jephson Street.
- **From High Street** turn left onto Sherwood Road and left onto Jephson Street.
- **If you are driving** to the Legacy Way Visitors' Centre, limited parking is located onsite.

Legacy Way is a 4.6km road tunnel that will connect the Western Freeway at Toowong with the Inner City Bypass (ICB) at Kelvin Grove. It will provide an alternative route to local roads for traffic leaving the Western Freeway and travelling to and from the ICB. When it opens Legacy Way will reduce, by up to 44%, the peak hour travel time of journeys from the Centenary Bridge to the ICB.
