Please join us at our Annual General Meeting and get involved in the upcoming 2015/2016 program. Stay on and hear Zoe Bowen gives us a brief presentation within an enjoyable atmosphere of networking, socialising and industry professionals.

ABOUT Zoë Bowen

Zoë is currently an Environmental Advisor with Beach Energy, an oil and gas exploration and production company headquartered in Adelaide and focused on the Cooper Basin.

Zoë has a Bachelor of Applied Science - Natural Resource Management and has a wide range of experience in environmental management in both the mining and oil and gas resource sectors.

Since graduating from university, Zoë spent ten years working in on-site environmental advisor positions, managing environmental impacts and issues at both underground and open-cut mines.

Between 2002 and 2012, Zoë worked as an environmental consultant for a variety of clients in the resource sector and was involved in providing advice and services on a wide range of environmental management issues including several large infrastructure construction projects.

During her presentation Zoë will provide an insight into the environmental challenges associated with oil & gas exploration and production and how Beach Energy manages and minimises its environmental impact in the Cooper Basin.
