

# Alternative energy – Waste to Energy

An evening forum by the Environment Institute of Australia and New Zealand - South East Queensland Division

Register early to secure your place

EVENT DATE: Tuesday 20 March 2018

TIME: 5.30pm to 8pm  
(Registration from 5.15pm and  
Networking drinks from 7.15pm – 8pm)

VENUE: GHD, 145 Ann Street, Brisbane

Register: Online at [www.eianz.org](http://www.eianz.org) – click on Events, SEQ

Our world is consuming more and wasting more. We are facing ever-increasing challenges to efficiently and profitably convert waste into energy and other products to lessen the footprint of our consumption. Join us for an evening to discuss the opportunities and developments in the Queensland Biofutures industry; specifically focusing on waste-to-energy from the micro-scale to the utility scale. With speakers from the Queensland Government, academia, the CEFC and those in the field running these projects – this will be an interesting evening discussing the challenges and benefits of turning waste into energy. This will be the third instalment of our Alternative Energy series of seminars.

This event will discuss:

- Insights from Government, academia and industry to provide a well-rounded collection of presentations and subject matter
- The Queensland Biofutures program and the various projects that have been supported by this initiative
- How bioenergy projects go from a concept to reaching financial close / commercial reality
- First-hand experiences of a bioenergy proponent in Queensland
- Queensland's waste challenges and opportunities
- Initiatives to reduce our landfill footprint

Our Event Partner

## Speakers & topics will include:

### TBA

[Dept of Environment & Science](#)

Qld's waste issue

Waste-to-energy concept

### Prof Ian O'Hara

[Biofutures Industry Envoy](#)

Opportunities for Biofutures in  
Qld and overseas

### Fiona Waterhouse

[Utilitas Group](#)

Technology, opportunities and  
future plans

### Henry Anning

[Clean Energy Finance Corp](#)

Assistance, competitive  
advantage and challenges

Chair:

[Joyanne Manning](#), [Associate Principal](#), [Arup](#)

## Who should attend?

Environmental professionals, university students and those interested in the waste industry, biochemicals and energy industries.
