RSVP: <https://www.eianz.org/events/event/nt-progress-update-on-implementing-the-recommendations-of-the-scientific-inquiry-into-hydraulic-fracturing-in-the-nt>

ABOUT

The independent *Scientific Inquiry into Hydraulic Fracturing in the Northern Territory* handed down its Final Report to the Northern Territory Government on Tuesday 27 March 2018.

The report made 135 recommendations which the NT government accepted in full.

Tony will provide an update on how implementation has been managed over the last 12 months, the priorities for the remainder of 2019, and the process for implementing the remaining recommendations.

Tony works in the Taskforce in the Department of the Chief Minister which works alongside additional implementation teams in the Departments of Primary Industry and Resources, and Environment and Natural Resources.
